**Let's find out more about FM..**

# What is FM?

FM world originated from Poland in 2004 - we've been going for 20 years!

It is widely known for producing amazing fragrances for affordable prices. Low prices doesn't mean the quality has been compromised - in fact, all of the perfumes are Parfum (stronger than EDT and EDP).

With no big celebrities to pay for advertising or lots of fancy packaging, FM are able to keep their products in a low price range.

As well as perfumes, FM also sell make up, supplements, home scents and skin care!

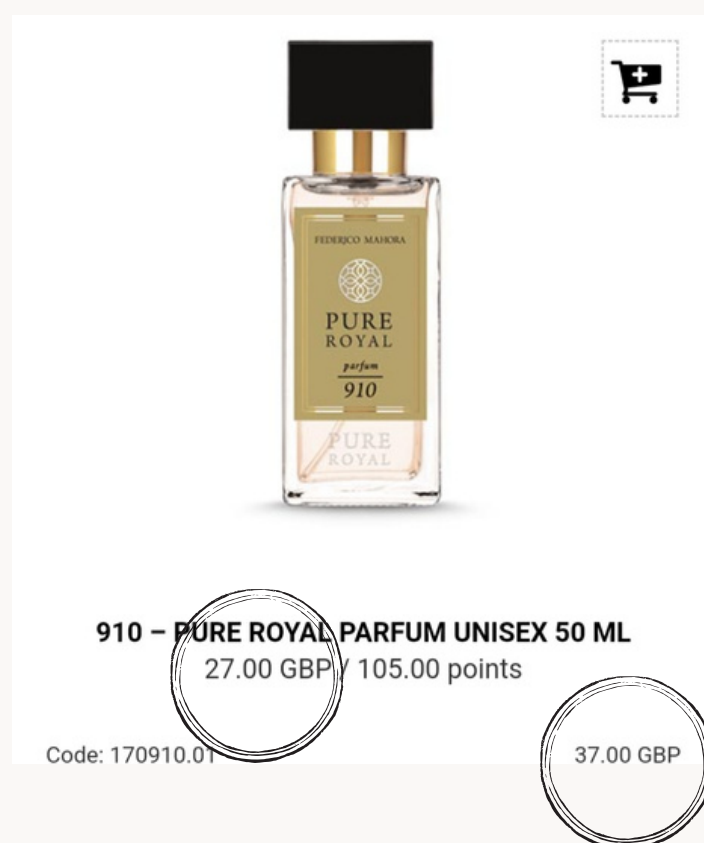

Selling FM products is as flexible as you'd like it to be. You can work it around your life straight from your phone!

**Let's see how we make money..**

# How we get paid

## INSTANT PROFIT

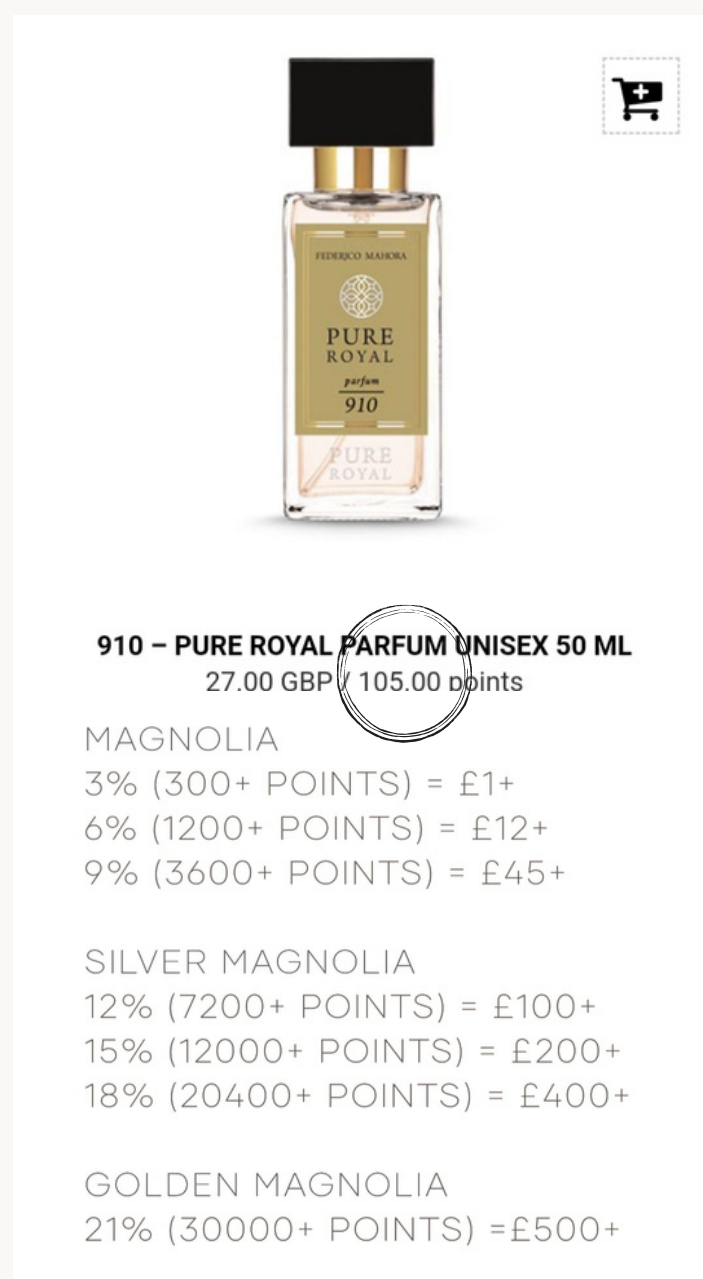

Our main way of making money is from the profit we make from selling the products. There is an RRP price and a business partner price. The difference between the two is our profit! This amount will be directly in your bank account.

## COMMISSION

Each item in FM shop has points. Each month these points add up allowing you to reach different promotional levels within FM (3%, 6% etc). Hitting these promotion levels earns you commission - this is extra money on top of anything you earn from selling the products. If you have a team beneath you, any points they get get copied to you as well! This helps you to hit higher promotion levels and earn higher commission.

There are also lots of opportunities to go for different bonuses if you wanted to - no pressure from anyone.
