

Easter Egg Cake

Ingredients

- 1 pkg (15.25-16.5 oz or 510 g) cake mix, any flavor (plus ingredients to make cake)
- 1 can (16 oz or 450 g) prepared frosting
- nonstick cooking spray
- food coloring (optional)

Directions

1. This sweet treat is even easier to make in the [Small Batter Bowl](#). Mix up your favorite packaged cake mix according to its directions. Coat the bowl with nonstick cooking spray, then pour in half the batter. Bake at 350°F (176 for 35 - 40 minutes). Invert onto the [Stackable Cooling Rack](#) and cool completely. Evenly trim the cake's wide end and cut the cake in half lengthwise. "Glue" the wide ends together with prepared frosting. Place on a serving platter and decorate.

Tip: Use the leftover batter to make a second cake or make six mini cakes in [Prep Bowls](#)! Adjust the bake time to 20 – 25 minutes.
