

# STEP 1:

-Using Mobile-

Download & Set up Rabby  
+ Obtain Seed Phrase

## ABOUT THIS GUIDE

In this guide we'll walk you through setting up Rabby on your mobile and obtaining your seed phrase.

Your Rabby wallet is the gateway to interacting with DAO1 and managing your digital assets securely. But before we dive in there's one non-negotiable rule you need to understand:

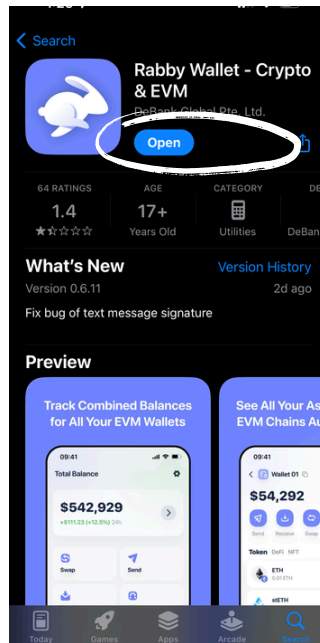

**Your seed phrase is EVERYTHING. Protect it like your life depends on it – and give it to NOBODY!**

When you create a Rabby wallet you'll be given a seed phrase – a series of random words that act as the master key to your account. This phrase is the only way to recover your wallet if you lose access to your device. **If someone else gets hold of your seed phrase they can drain your wallet in seconds – so NEVER give it to anyone! EVER! Not even anyone who says they are affiliated with DAO1.**

**IMPORTANT:**  
**app.dao1.ai will NEVER ask for your seed phrase,  
if this happens you are on a fake site!**

Once you've set up Rabby and secured your seed phrase, you'll be ready to move forward with creating your DAO1 account. If you already have Rabby on your mobile phone you can proceed to the next guide.

## 1: Download Rabby App

Click on 'Install' to download Rabby Wallet.

This App will allow you to navigate DAO1 in a more secure environment and is necessary for full functionality of the platform.

**IMPORTANT:** The steps in this guide are to be done using only the Internal Rabby Browser. Other browsers will not work as seamlessly or securely with DAO1.

**⚠ BEWARE: Fake Wallet Extensions = Stolen Crypto ⚠**

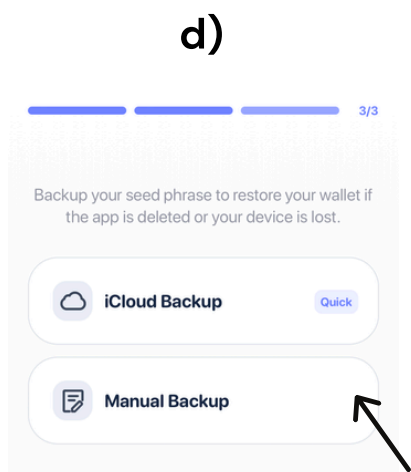

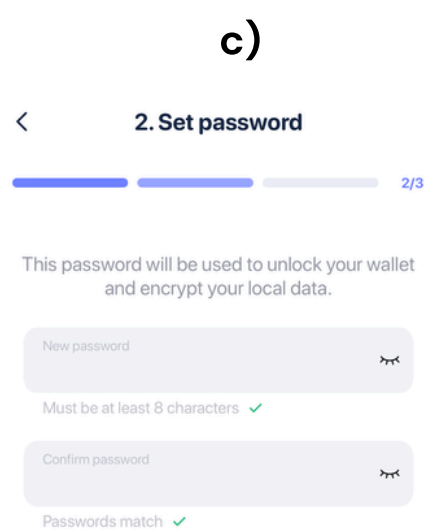

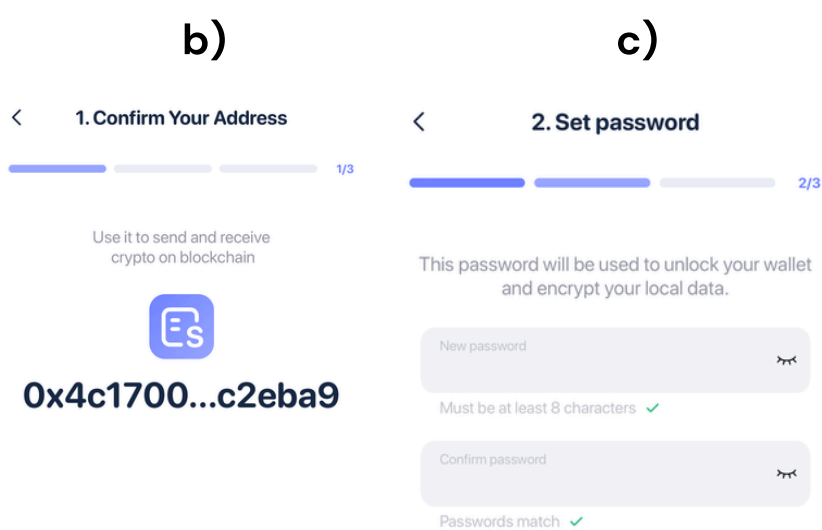

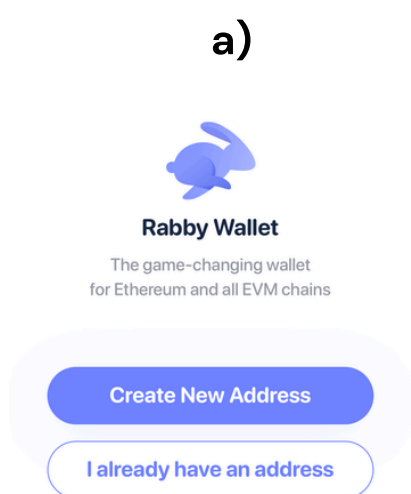

There have been cases where people unknowingly download fake versions of Wallets – scam extensions designed to steal your crypto. To protect yourself **NEVER Google Rabby or DAO1**. Instead, always click the official Installed App – then get to DAO1 via the internal Rabby browser by searching `app.dao1.ai`

One wrong click could cost you everything – stay sharp, stay safe.

## 2: Create A Rabby Wallet And Obtain Seed Phrase

Ensure you are only using Rabby Wallet downloaded from the App Store to be confident this is the Authentic version.

a) Click the 'Create New Address' button. b) It will show you the address it has generated, Click 'Continue'. c) Set a Password (ensure you record this somewhere safe and private as you will need this to access your account in the future) Read and tick T&C's box. Continue. d) Click 'Manual Backup'.

**IMPORTANT**

The next steps are where you will access your secret recovery phrase, otherwise known as a seed phrase.

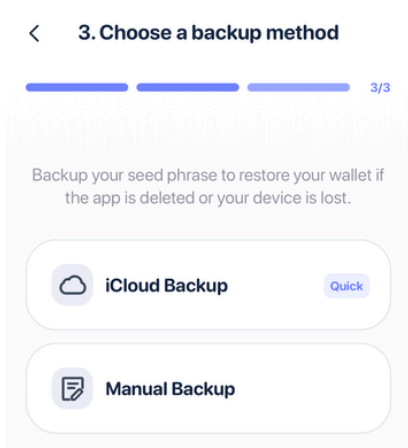

- Write it down and store it somewhere safe – offline.
- NEVER share it with anyone. Not Rabby, not DAO1, not customer support – no one!
- DO NOT store it digitally (no screenshots, no notes apps, no emails).
- If you lose it, your wallet is gone. There's no reset button in crypto.

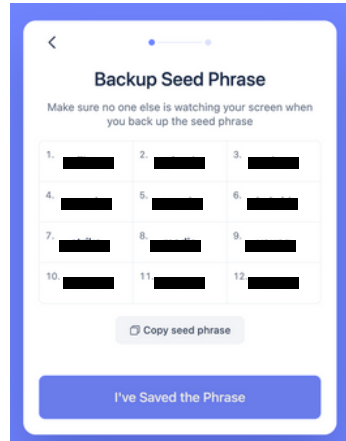

**IT IS CRUCIAL** that you take into account these golden rules.

**e)** Click 'Manual Backup' then tap to reveal words (ensure nobody is looking). **f)** Write 12 words down in order and store somewhere safe. Click 'I've saved the Phrase' **g)** Enter the missing words to verify you have recorded phrase correctly then press 'Confirm'. **h)** Press 'Done'.

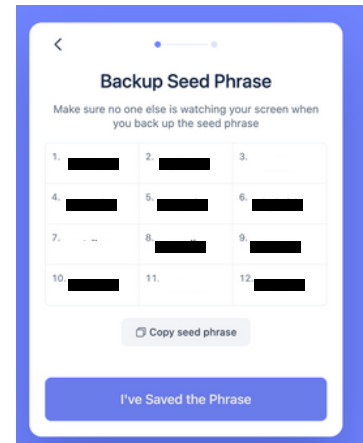

**e)**

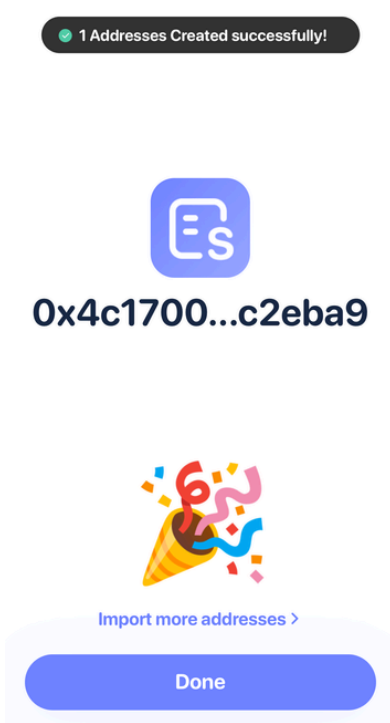

**f)**

**g)**

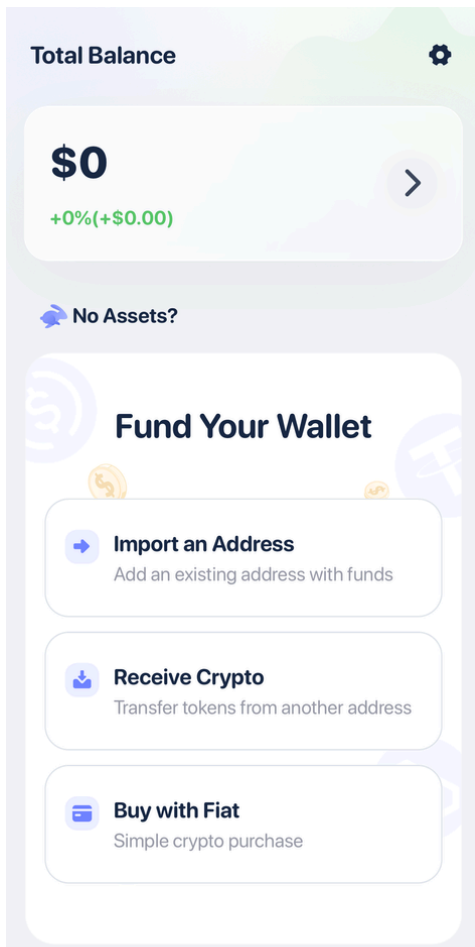

**h)**

**IMPORTANT**

**Your Seed Phrase = Your  
Wallet's Lifeline**

Your seed phrase is the only way to recover your wallet if your device is lost, stolen, or compromised. If someone else gets it, they can steal everything – no undo button, no customer support to save you. Write it down, store it safely offline, and NEVER share it with anyone.

Your Rabby account will now open & is set up.

You are now ready to move onto the next guide, where you will fund your wallet with Gas fees.
