This table represents estimates based on the average party size of \$517, from Jan. 1, 2021–June 30, 2022, for active consultants who have achieved all requirements to be paid at their career level. Earnings and time invested are not necessarily representative of the income, if any, that an independent Consultant can or will earn through participation in Pampered Chef compensation plan. Less than 4% of Pampered Chef consultants earn the highest average monthly income shown. Pampered Chef doesn't promise or guarantee income, nor the success of a Pampered Chef Independent Consultant. Like any other business, earnings depend on each independent Consultant's skills, leadership, and personal effort.

“I started on a complete whim to earn some free products and a little extra income! Never in a million years would I have imagined all the joy, purpose, recognition, friendships, and personal growth that would result.”
